## **HB 2233 - SB 2484**

February 1, 2000

**SUMMARY OF BILL:** Extends the time for filing a workers' compensation claim for occupational disease from one year from the date of the incapacity for work resulting from an occupational disease to two years.

### **ESTIMATED FISCAL IMPACT:**

**Increase State Expenditures - Not Significant**

**Increase Local Govt. Expenditures - Not Significant**

Assumes that by increasing the time that a claimant may file an occupational disease claim could increase the number of claims filed. However, based on information received from state and local governments only a small number of these claims are filed each year against state or local governmental entities.

### **CERTIFICATION:**

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
